Summary

Full Stack Developer skilled in building responsive web apps using React, Node.js, and MongoDB. Experienced in integrating RESTful APIs, deploying scalable solutions, and implementing AI-powered features. Strong problem-solving mindset with a focus on clean code, performance, and user experience.

Education

Gujarat Technological University

Bachelor of Computer Engineering
Jul, 2023 - Jul, 2026

Diploma in Computer Engineering(GTU)

R.C Technical Institute, CGPA :
8.41
Aug, 2020 - Jul, 2023

SHIVALK SECONDARY SCHOOL (10th GSEB)

Percentage : 69.8%

Technical Skills

React, Node js, Express js, Mongo DB, C++, JavaScript , SQL, Agentic Ai, Data analysis

Soft Skills

Result oriented, Problem-solving, Communication, Time management

Languages

English, Hindi, Gujarati

Certifications

- Programming in C++ (CDAC)
- Data Analyst (Accenture)

Work Experience

Trusted Communities Organization pvt. Ltd

Jan, 2025 - Jun, 2025

Full Stack + Ai Intern

- Developed and deployed responsive web applications using modern full stack technologies, contributing to both front-end and back-end features.
- Gained hands-on experience with deployment workflows, version control, and maintaining production-ready websites.
- Explored and implemented concepts of Large Language Models (LLMs) and AI agents to build smart automation tools.
- Built AI-powered automation systems that enhanced user interaction and streamlined internal processes.
- Collaborated with senior developers and researchers to integrate AI solutions into web platforms.

Projects

RD and Maturity Calculation Chatbot

Jun, 2025 - Jul, 2025

<https://github.com/urvish2930/RD-and-Maturity-calculation-chatbot>

Developed a web-based RD maturity calculator chatbot using React.js for the UI and Node.js for backend logic. Integrated ChatGPT API to handle real-time user queries and provide financial responses.

- Integrated OpenAI's ChatGPT API to handle financial queries in a conversational format, improving user engagement.
- Built modular, responsive UI components for input collection using React.js and styled with modern design principles.
- Implemented robust backend logic in Node.js, applying accurate RD maturity calculation formulas.
- Delivered an intuitive user experience for non-technical users to access complex financial data easily.

Esport News

Mar, 2023 - Jun, 2023

<https://github.com/urvish2930/Esportnewz-Website>

Developed a responsive Esports news website using HTML, CSS, JavaScript, PHP, and SQL to deliver real-time updates and enhance user engagement.

- Built a fully functional news website with a clean UI and responsive layout using HTML, CSS, and JavaScript.
- Implemented PHP for dynamic content handling and backend logic.
- Integrated a SQL database to manage and store articles, categories, and user interactions.
- Promoted user engagement through timely updates and an intuitive content structure.
